ARREST OF THE FRENCH CONSUL AT MATAMORAS. The N O Picayune has advices from Matamoras stating that the authorities there had arrest d M Bosiguez Vice Consul of France Dr P L Jan and A Fromm editor of the *El Bo a* paper for furnishing and publishing matter ignominious to Mexican authorities These men were to be hastened to the city of Mexico for trial This is a high handed act towards France and may involve President Herrera and his administration in a very unpleasant discussion with France

It is rumored also that Gen Avalos has threatened to arrest the editor of the American Star published at Brownsville opposite for the like offence Should he do this it may kindle a flame that will set the whole valley of the Rio Grande in a blaze

Boston Municipal Election.

This election took place on Monday There seems to have been but little excitement, and no serious opposition to Mayor Bigelow The return of votes for Mayor, as given in the last is for Bigelow (Whig) 1660 Hall (Loco) 700, Salmon (Free Soil) 317 scattering, 17 — The Aldermen the whole Whig ticket for Aldermen is probably chosen by a large majority

The Whig candidates for Common Council men were all elected except in Wards Two and Twelve In the latter Ward, one Whig and one Democrat were elected, and there are two vacancies

The members of the School Committee elected, are all Whigs with the exception of two from Ward 2

☞ One of the great secrets of trade says the Lancaster Union is a judicious and well-directed system of advertising An advertisement is to those who visit our city to make purchases or transact business with our mechanics and professional men, what the finger board is to a traveller in a strange land—pointing to the place he desires to find Hundreds and thousands of persons lose by the cards of merchants mechanics, &c for articles they are in search of and are much more likely to visit the house that advertises what they need, than stumble along the streets from one store to another to find what they want

John Bromfield, Esq. of Boston, in accounts of whose death we publish in yesterday's Journal left in his will the following very munificent and judicious donations to the Free Beds of the McLean Asylum $10 000 to the Boston Female Dispensary $10 000 to the Lying-in Hospital $10 000 to the Farm School $10 000; to the Asylum for the Blind $10 000 to the town of Newburyport for charitable purposes $10,000 making in addition to his gift to the Boston Athenæum the sum of $130 000, We learn that in addition to these amounts Mr Bromfield left upwards of $100,000 to relatives and friends

There is a very strong feeling in the Island of Jamaica in favor of being annexed to the stars and stripes of the United States The Colonial Standard a paper of influence proposes that the legislature appoint to the duties be appointed one at Washington to negotiate such a treaty, and that it be forthwith carried into effect — The expense would not be great, and whatever it might be, it would be trifling in comparison to the importance of the object to be gained

☞ Mr Bugbee has received the fourth number of Messrs Phillips, Sampson & Co's elegant and rich edition of Shakespeare's Dramatic Works, now in the course of publication at twenty five cents a number This edition will make one among the many other publications which offer the most acceptable New Year gifts No 6 will appear on the 15th of December Number 7 on the first of January and the succeeding numbers every two weeks thereafter Our friends should examine this edition and they will find some thing quite meritorious

It is said that Mr Babbitt the Delegate from the Mormon Territory of Deseret, insists that he has been regularly elected to Congress, and de sires claiming his seat as such as soon as the House is organized He bases his right to a seat upon a precedent set in the case of Minnesota, which, at the time was regarded as an unsafe one and which will lead to some embarrassment in the disposition of Mr Babbitt's claims.

☞ The editor of the Boston Atlas thus alludes, in the notice of a recent Concert, to a breach of good manners, which unfortunately prevails in other places besides Boston and which is often a source of great annoyance at the meetings of the Lyceum in this city not only from young ladies but from young gentlemen also, and to such an extent as strongly to tempt one of our friends to request the speaker to pause until the young people had a hearing in the hope that then all would be permitted to listen to our speaker at a time The Atlas says

"We should have enjoyed the entertainment more had it not been for our close proximity to two silly, ill behaved young ladies who thought the concert room a fine place to chat and giggle All laughter (evidently considered their own voices far superior to the music around them, fashionable as it is, for a moment imagined that others were differently impressed. We hope we shall be on the other side the next time

An invention of a novel character has been made in Paris By a simple yet ingenious mechanism, the folding of newspapers, which has hitherto been performed by the hand, is now effected by a peculiar machine With this assistance of one person to attend to it, this machine will fold 2000 newspapers in an hour

According from California intelligence that the State government will be put in operation without waiting for the action of Congress Senators and Representatives will be elected by the new State authorities, who will meet in January next

Picturesque and Pleasant, or a practical view of the mutual duties relations and interests of the Medical profession and the community By Worthington Hooker M D New York Baker & Scribner — 1849 pp. 463

This is the title of a plump volume which has been laid upon our table by Mr E F Duren It is the work of an earnest professional mind engaged by a large experience The author, with all his knowledge and all his experience, and which valuable suggestions fairly running off the nib of his pen, is perhaps very professionally well-to do in his system that he can see nothing in any other system than its faults, and to those he gives no mercy Let the faults of every system, and indeed in every practitioner in all systems be exposed, and chastised, and driven out of the world, but not judge every system but one's own by its errors To the profession and to its steadfast and earnest and conservative friends this book must be valuable The reformers in medicine will find much in it to condemn

The suggestions as to the general ability of nature to throw off disease may be read with profit and by all It is many upon this that the Thomsonian theory is based, although not admitted in the book

The work has a chapter on *Homœopathism* and also here on *Hydropathy*, and those who understand the theories sealed in these chapters may be to condemn us to fire, and to conclusion the authors is at, for want of a right understanding of both of these systems and to their abusive and expensive humbug in trying to cry them down

Medical writers have generally succeeded in demonstrating the errors in the science and practice of their profession but take them all together they have in every title to command the confidence of the community, and so the science and profession stands to day as hundreds of years since a work of experiments

☞ The Lisbon correspondent of the London Times states that the renewed demand for bread in the United States, for the value of a provision destroyed by the British under the guns of the battery at Vera Cruz, Prussia refuses to comply with, partly because in the time she was under the control of the British for example because the treaty of Ghent is said to dispose of the question

The last Thomaston Gazette states that E M Perry, Esq. one of the California adventurers who left that town in March last returned by the Crescent City, in May the passage from Panama to Thomaston in thirty eight days — He was compelled to leave the country in consequence of the failure of his health those of his companions with whom the claim to agreed were doing well

☞ Holbrook's New England Railroad Guide to Dec. (inches has) be received It is a capital little work which the locomotional habits of our times have rendered indispensable to travellers as it keeps them fully posted up on all matters relating to the arrival and departure of trains, &c

The British Steamer Gorgon with 100 men of the British rifle brigade bound to the scene of the late Indian disturbances, is supposed to have been lost on Lake Superior during a recent gale

☞ Professor M Morse will deliver a lecture on this evening before the Mechanic Association on the connection between the mechanic and the fine arts The public are invited to attend

The people of Gloucester, Mass are making an effort to procure an appropriation from government for the erection of a custom house, in that place—a favor to which their extensive business entitles them.

Counterfeit five dollar bills on the Pawtucket Bank Pawtucket Mass are in circulation and several have been passed in this city. The notes are quite unlike the genuine, J C Sayles, Weather, President, A A Fillingham Cashier.

When a dentist pulls out an aching tooth for us says the Boston Post, we call it accidental operation, so if he were to pull out a sound tooth instead of the finger, we should call it an *accidental* operation, should n't we?

☞ Capt. Drummond who has recently sailed commander of a ship from Bath for California is a Bangor Boy, energetic, enterprising, and intelligent May success attend him.

☞ We have once or twice called attention to the January number of Godey's Lady's Book and only need now to say, that Mr Bugbee has a full supply at his Book store on Exchange street

Counterfeit Tens upon the Shoe and Leather Dealers Bank, Boston, vignette three females, and on the left a portrait, are in circulation

☞ The Grand Jury of the County of Plymouth Mass have indicted the town of Middleboro for not keeping a High School, according to law

☞ Bugbee has received the Mammoth Pictorial Brother Jonathan for Christmas and New Year. It is a splendid affair

☞ A block of granite for the Washington Monument was obtained from the quarry of Free Stanborn, Ind., at Frankfort

The Value of Coal — The London Times, in a recent article speaks of the coal beds of England in the following terms —

The exhaustion of our coal beds would be the final and utter catastrophe of our greatness, and then England would immediately sink into a third rate power It is to coal that we owe everything which is great in our position and history. Coal is the real basis of the rude foundation of our civilization, and England is indebted for it as much to her Nile Athens the school and Rome to her policy and arms

We lose upon this subject anything beautiful Beautiful flowers, evergreens, a waxside satsfaction We must have very fair hands every day, wear fine flowers and thank God for sound and constantly with all your — In a charmed draught, a cup of blessing

Relation of Parties for Sixty Years.

We copy from the Republic the following summary of the relation of parties in Congress since the organization of the federal government It will be seen that in the first and third Congress the opposition elected the Speaker of the House, and in the fourth Congress there was an opposition majority In the twenty sixth Congress (Van Buren) there was an opposition majority and also in the last Congress With these exceptions the Presidents have been sustained by decided majorities in Congress

"In the first Congress, in 1789 and 1790, there was but a small majority in favor of the measures recommended by Washington The anti-Federalists elected John Langdon, of New Hampshire President *pro tem* of the Senate, and Frederick A Muhlenberg Speaker of the House of Representatives.

In the second Congress there was a majority in each branch friendly to the administration

In the third Congress the opposition elected the Speaker, and in the Senate Mr. Adams received scarcely settled important questions by his casting vote

In the fourth Congress there was an increased majority of the Senate in favor of the administration In the House there was evidently a majority in opposition This state of parties is indicated by the answer returned by the two Houses to the President's speech That of the Senate expressed entire approbation of the Executive In the House the committee reported expressions of *undiminished* confidence, with which the House would not concur The report was recommitted and modified But a friend of the administration, Mr Dayton, of New Jersey, was elected Speaker.

In the fifth Congress, Mr Adams) there was a decided majority in both branches favorable to the administration

In the sixth Congress, there was an administration majority in the House, and its Speaker elected

In the seventh Congress, (Mr Jefferson) parties were nearly equally divided Abraham Baldwin Democrat, was elected President *pro tem* of the Senate A friend of the administration, was elected Speaker

In the eighth Congress there was a large administration majority in both branches So in the fourth Congress and tenth

In the eleventh Congress, the first of Mr Monroe's administration, — party lines were nearly obliterated, and Mr Clay was re-elected by an almost unanimous vote So at the first session of the sixteenth Congress At the second session, Mr Clay having resigned, the House proceeded to ballot for a new Speaker the candidates were Mr Lowndes, of South Carolina, Mr Sergeant, of Pennsylvania, Mr Samuel Smith, of Maryland, and John W Taylor, of New York After seven ballots on the first day, the House adjourned On the second day, after nineteen ineffectual ballots, the House again adjourned On the third day, Mr Taylor was elected He was of the De Witt Canton section of the Republican party The Speaker of the seventeenth Congress, was Mr Philip P Barbour of Virginia, who was elected by a few votes over Mr Taylor In the eighteenth Congress, Mr Clay was again chosen Speaker by a large majority over Mr Barbour

In the nineteenth Congress (J Q Adams) a friend of the administration, Mr Taylor, was chosen Speaker on the second ballot—receiving 99 votes, to 94 for all others In the twentieth Congress, the opposition Speaker, Mr Stevenson, received 10 votes, Mr Taylor 94, and there were 7 scattering

In the twenty first Congress, General Jackson had a decided majority in both branches — In the House Mr Stevenson received 158 votes against 30 In the twenty-second Congress, Mr Stevenson was re elected by 38 votes against 97 for all other persons

In the twenty-third Congress, he was a large administration majority in the House, but in the Senate the administration was in a minority So in the twenty-fourth

In the twenty-fifth Congress (Mr Van Buren) the administration candidate for the Speakership, Mr Polk received 119 votes, against 38 for Mr Bell, and 6 scattering

In the twenty-sixth Congress, an opposition member was elected Speaker on the 11th ballot—Mr Hunter, of Virginia

In the twenty-seventh Congress, a Whig Speaker, Mr White of Kentucky, received 121 votes against 84 for J W Jones, and 10 scattering

In the twenty eighth Congress, a Democratic Speaker was elected — J W Jones—by 129 votes against 59 for Mr White

In the twenty-ninth (Polk) Congress, the administration Speaker, Mr Davis was elected, receiving 120 votes, against 72 for Mr Winton, and 19 for other persons

In the thirtieth Congress, the opposition Speaker, Winthrop, was elected on the third ballot, receiving 110 votes against 94 for Lynn Boyd, 41 for other Democratic candidates, and 6 scattering Whig votes

In the thirty-first, (Taylor) Congress, the Democratic party proper have a majority in the Senate In the House, both the Whig and Democratic party seem to be in a minority

☞ The Placer Times at Sacramento city, has the following item

"We shall soon have need for tailors dress makers, and milliners in our good city. Young gentlemen are coming out with their standup collars, spring garter pants, and extensive displays of broadcloth while the few ladies in town are not behind in the spreading of silks and satins We shall soon have an supper ten thousand, and an Opera House, but, in the meantime, we would advise young gentlemen not to swell too much, for fear of a collapse or explosion The over dressed man is looked upon as either a fop or a fool, and is probably both.

No election of Speaker—Quite a flare up in the House—Mr Brown declined—No Whig Nomination.

WASHINGTON, Dec 13th, 1849

The Whigs held a caucus in the Hall of the House of Representatives on Tuesday evening There was a full attendance and the best feeling prevailed Mr Cabell of Florida made a speech defending his position There was no nominator made as it was thought best to await the result of the ballotings in the House

On Wednesday, on the fortieth ballot, Brown of In. had 112, Duer of Ky. 26, Morehead of Ky. 17, Stanley of N C 17, McGaughey of In. 13, Winthrop of Mass 17, and the remainder were scattering

There was quite a flare-up between the Northern and Southern members. Brown, the democratic candidate then declined being a candidate Up to 5 o clock last evening, there had been no choice of Speaker.

☞ The Washington correspondent of the N Y Express thus talks —

The ultra abolitionists of the North, however ridiculous as their exclusive pretentions to a monopoly, of anti slavery sentiments appear, and impracticable and subversive as are most of their schemes, are no bad intentioned men, in comparison with the crazy hotspurs of the South, who would overturn the Union, if the General Government should venture to deny them the indulgence of the least whim or caprice But it must be admitted Southern men have some excuse for opposing the admission of Gen Taylor, who a Southern man, professes his willingness to sign a bill enacted in accordance with Northern prejudices and opinions upon this subject. While these, in consistent, *to say the act*, ultra abolitionists of the North oppose a Southern Free Soil President because he is not a Loco Foco Out upon such men, they are a disgrace to the American Congress, they not only borrow the livery of heaven to cloak their rotten purposes, but they steal the language of archangels with which their deceive good and well disposed spirits into their meshes, that they may lead them down to—destruction

If the Peoche and the public schools in Thomaston have formed themselves into a Social Club for mutual entertainment in reading, They invite the entire public to meet with them and participate in their exercises

☞ The Keokuk Blade, in speaking of the *State* of Chicago

It is remarked as something unusual that there is not in the present House of Representatives at Washington a single member of the name of Smith to balance this, however, there are no less than five Smiths

It should be the aim of young men to go into good society We do not mean the rich, the proud and fashionable but the society of the wise, the intelligent and good

Mrs Swisshelm, editress of the Pittsburgh Saturday Visitor, says "a smoothly shaved or beardless man meets our idea of manhood about as well as a square shouldered shingle shaped woman meets our notion of womanhood Let grow the whiskers now you look of creation, ugly as one lady at least who does not see her face against them

Col J B Weller, The New York Tribune says this matter as gentlemanly has got into a little difficulty with Major Gray of the Boundary Commission A collision took place at San Diego between the parties in the course of which Weller was shot in the leg, the hurt is said to be slight Mr Weller was not understood to be in any danger from it

A gentleman has the occasion to call upon a physician in Cincinnati the other day stopped at the door and rang the bell The summons was answered by a Dutch servant girl of whom he inquired if the doctor was in No' Wis he lady in? Yes What is he engaged? The girl looked at him a moment, while a curious expression settled on her features as she replied Why no, she is already married The gentleman eloped

I have been cheered in hundreds in this region certainly from a child with this habit, and I feel that I am not to be almost unintelligible for in five minute after comprehending his rule, I was perfectly free to talk and converse with ease, and I

BANGOR, Oct 21, 1849

John E Wilder Esq —

Dear Sir—The Safe I purchased of you was exposed to a great degree of heat at the burning of the Telegraph Office, in this city It was in the fire six hours the books and papers were uninjured, and the damage to the Safe very slight, although it fell from the second story to the basement of the building The little repairs necessary to the Safe were soon made, and we shall not hesitate to purchase it, It is still as good as new

COMPOUND EXTRACT OF

SARSAPARILLA,

Wonder and Blessing of the Age

THE MOST EXTRAORDINARY MEDICINE IN THE WORLD

This Extract is put up in Quart Bottles—it is six times cheaper per quantity, and warranted superior to any sold in wines without vomiting, purging, sickening, or debilitating the Patient.

The great beauty and superiority of this Sarsaparilla over all other medicines is, while it eradicates disease it invigorates the body It is one of the very best

SPRING AND SUMMER MEDICINES

ever known. It not only purifies the whole system and strengthens the person, but it *creates new pure and rich blood*—a power possessed by no other medicine And *blood* is power, possessed by no other medicine And their unrivalled success in curing all diseases of the blood arising from impurities, or debilitating the system, is unparalleled in the history of medicine. Their unbounded success—their unbounded success—their unbounded success—

Blacksmith's Island, Sept 14, 1847

Dr Townsend—Dear Sir I have suffered terrible pain in my joints with rheumatism, and was unable to get out of bed for four months, and your Sarsaparilla in a very few weeks removed the disease entirely, and restored me to perfect health. I am much in your debt—indeed, I consider myself a living monument of the benefits effected by your Sarsaparilla

JAMES CUMMINGS

FITS! FITS! FITS!

Townsend has nothing to extol his Sarsaparilla in the way of certificates, never to seem necessary, and never to receive the following from an intelligent and respectable farmer in Westchester County

Yonkers August 13 1847

Dear Sir—Perhaps it may be gratifying to you to know that I have been for several years afflicted with fits, which almost every thing for a long time, but without success, at last felt though we could find no account upon your circulars for such like cases, we thought we might as well do justice to the thing we would give Townsend's Sarsaparilla, and are very glad we did for it only restored her strength, but also has had one of the best, to our great joy and surprise, a perfect cure, and has not had a fit for a long time Yours respectfully,

JOHN BUTLER, Jr

FEMALE MEDICINE

Townsend's Sarsaparilla is a sovereign and sure cure for Incipient Consumption, Bronchitis, Chronic or Painful Affection of the Womb, Chronic Rheumatism, Fever Sores, Scrofula, Ulcers, Blotches, Boils, Tumors, Tetter or Salt Rheum, Scald Head, Ringworm, Pimples on the Face, Female Obstructions, Pain in the Side, Dyspepsia, or Indigestion, Jaundice, Dizziness, Fever and Ague, Female Weakness, Nervousness, Blues, Pain in the Back and Limbs, Sick Headache, Female Difficulties, Dropsy, Erysipelas, Coughs, Colds, Hoarseness, Croup, Asthma, Pain in the Breast, Liver Complaint, Dysentery, Bleeding of the Lungs, Kidney Complaints, Diabetes, Retention of Urine, Stone and Gravel, Affections of the Bladder, Diseases arising from Imprudence in Life, Nervous Irritability, Low Spirits, Blotches on the Face, Disturbed Sleep, Frightful Dreams, All Diseases arising from a Disordered Liver, Stomach, Blood or Nervous System, Universal Lassitude of the Muscular System, Hysterics, Female Complaints, Exposure or Indiscretion, Habits of Dissipation, Excesses and Secret Habits, Loss of Memory, Universal Prostration, Premature Decay, Affections Arising from Mercury, Barrenness, Involuntary Discharges, Spermatorrhœa, Seminal Weakness, Sexual Incapacity, Impotency, Nervousness, Sleeplessness, Dyspepsia, Biliousness, Head-ache, Pain in the Side, Back, Limbs, Faintness, Shortness of Breath, Costiveness, Blotches, Worms, Scald Head, Sore Eyes, Erysipelas, Itch, Scurvy, Ringworm, Pimples on the Face, Pain in the Bones, Tumors, Ulcers, Old Sores, Scrofula, or Kings Evil, Consumption, Liver Complaint, Dropsy, Gout, Dysentery, Jaundice, Rheumatism, Fever and Ague, Fever Sores, Scurvy, Abscesses, Diseases of the Kidneys, Female Weakness, Barrenness, Leucorrhœa, or Whites, Obstructed or Difficult Menstruation, Prolapsus Uteri, or Falling of the Womb, Chronic Inflammation, Ulceration and Cancer of the Womb, Cancerous Humors, Uterine Hæmorrhages, or Flooding, Chronic Mercurial Diseases, Old Rheumatism, Gout, Neuralgia, Tic Doloreux, Epilepsy or Fits, Chronic Inflammation of the Kidneys, Inflammation of the Bladder, Retention of Urine, Calculus or Stone and Gravel, Ulceration of the Bladder, Stricture, Impotency, Involuntary Discharges, Pain in the Back, Dimness of Vision, Premature Old Age, Universal Prostration of the System, all Diseases arising from the Habits of Youth, Habits of Dissipation, Excesses, Exposures, Secret Habits, &c. &c. &c.

This is the reason why the southern, and especially the Spanish ladies, are so much admired. Ladies in the north who take but little exercise or are confined in close rooms for hours spoiled their complexion by the application of deleterious mixtures, if they would regain elastic tread, buoyant spirits, sparkling eye, beautiful complexion, they must use Dr Townsend's Sarsaparilla. Thousands who have tried it pronounce it unrivalled, and do not hesitate to say it removes these assailed, are delighted Ladies of every station crowd our office calls.

NOTICE TO THE LADIES

Those that imitate Dr Townsend's Sarsaparilla have invariably called their stuff *a great remedy for females, &c. &c.*, and have coupled our bills and circulars which relate to the complaints of women, word for word—others men who put up medicine have, since the great success of Dr Townsend's Sarsaparilla recommended it for *females*, recommended the same, although previously they did not A number of these Mixtures, Pills &c., are injurious to females, as they aggravate diseases and undermine the constitution.

SCROFULA CURED

This Certificate conclusively proves that this Sarsaparilla has perfect control over the most obstinate diseases of the blood three persons cured in one house unprecedented.

THREE CHILDREN.

Dr Townsend Dear Sir—I have the pleasure to inform you that three of my children have been cured of the Scrofula by the use of your excellent medicine—The first was afflicted two years—the second four years—the third four months. It took them away, for which I am truly grateful for restoration to health. Yours respectfully,

W. P. CLAIN, 106 Woostor st.

OPINIONS OF PHYSICIANS.

Dr Townsend's Sarsaparilla is almost daily receiving orders from physicians in different parts of the Union

This is to certify that we, the undersigned, Physicians of the City of Albany, have in numerous cases prescribed Dr Townsend's Sarsaparilla and believe it to be one of the most valuable preparations of the Sarsaparilla in the market H P FULLING, M D

CAUTION.

Owing to the great success and immense sale of Dr Townsend's Sarsaparilla, a number of persons who were formerly our Agents, have commenced making Sarsaparilla Extracts, Elixirs, Bitters, Extracts of Yellow Dock, &c. They generally put it up in the same shaped bottles, and some of them have stole and copied our wrappers, and they are worthless imitations, and should be avoided

PORTSMOUTH Sept 29 1849

Mr J P MOSES, Agent for "White's Hair Restorative"

Dear Sir—I deem it my duty to state some facts respecting the instantaneously calm of White's Hair Restorative Several years ago, after a severe fit of sickness, my wife lost all her hair, the scalp appeared dried and, and the hair grew out fresh, and one week After using a few bottles of your Restorative, the hair all her hair a second time, and for a long time there was no recurrence of the disease After using the above mentioned Restorative, and now after the lapse of two years, the hair is as full and as glossy as ever, and is as beautiful as ever Furthermore, for a long time I have been afflicted with neuralgia and other pains in my head and I am so found that the hair Restorative is a powerful remedy for these pains, and therefore cheerfully recommend it to all who are afflicted as above, as the best article I have ever seen

GREAT BLESSING TO MOTHERS AND CHILDREN.

It is the safest and most efficient medicine for purifying the system and relieving the sufferings attendant upon child birth ever discovered It strengthens both the mother and child, prevents pain and disease, increases and enriches the food—those who have used it think it indispensable It is highly useful in both forms and quantity, as it perfectly relieves the attendant upon a child birth—in Costiveness, Cramps, Swelling of the Feet, Dysentery, Heartburn, Vomiting, Pain in the Back and Loins, also Pains, Hemorrhages, &c. it is a regulating medicine and equalizing the circulation it has no equal. The great beauty of this medicine is, it is always safe, and the most delicate use of it, most successfully, very few doses require any other medicine—in some a little Castor Oil or Magnesia is useful Exercise in the open air, and light food with this medicine, will always ensure a safe and easy confinement

BEAUTY AND HEALTH

Cosmetics, Chalk, and a variety of preparations generally used are highly injurious to the skin, they soon spoil it of its beauty They close the pores of the skin, and check the circulation, which, when nature is not thwarted by disease or powder, of the skin is fitted by the vitality used in toning, and fits its own production in that human face divine, Nothing is in the garden of such beautiful tints and variegated flowers A free, active and healthy circulation of the fluids or tone of the vessels, free blood to the surface is all that is wanted to give a perfect ease in the most exquisite beauty. It is that which imparts the indescribable shades and flushes of loveliness that all admire, but none can describe This beauty is the offspring of nature—not of powder or soap If there is not a free and healthy circulation, there is no beauty if the hand is fair as driven snow, if she paint and use cosmetics and the blood is thick, cold, and impure, she is not beautiful If she be brown or yellow, and there is pure and active blood, it gives a rich bloom to the cheeks, and a brilliancy to their eyes, that is fascinating.

This is the reason why the southern, and especially the Spanish ladies, are so much admired. Ladies in the north who take but little exercise or are confined in close rooms for hours spoiled their complexion by the application of deleterious mixtures, if they would regain elastic tread, buoyant spirits, sparkling eye, beautiful complexion, they must use Dr Townsend's Sarsaparilla. Thousands who have tried it pronounce it unrivalled, and do not hesitate to say it removes these assailed, are delighted Ladies of every station crowd our office calls.

NOTICE TO THE LADIES

Those that imitate Dr Townsend's Sarsaparilla have invariably called their stuff *a great remedy for females, &c. &c.*, and have coupled our bills and circulars which relate to the complaints of women, word for word—others men who put up medicine have, since the great success of Dr Townsend's Sarsaparilla recommended it for *females*, recommended the same, although previously they did not A number of these Mixtures, Pills &c., are injurious to females, as they aggravate diseases and undermine the constitution.

CAUTION.

Owing to the great success and immense sale of Dr Townsend's Sarsaparilla, a number of persons who were formerly our Agents, have commenced making Sarsaparilla Extracts, Elixirs, Bitters, Extracts of Yellow Dock, &c. They generally put it up in the same shaped bottles, and some of them have stole and copied our wrappers, and they are worthless imitations, and should be avoided

McKENNEY'S COSSACK SALVE!!

An Invaluable Remedy

FOR Fever Sores, Rheumatism, Swellings of the Feet and Limbs Swelling of the Joints or Sore Throat Cancerous Eruptions of the Skin and all Scrofulous Diseases Rigid Cords Contractions Colds or Strains, Stiff Neck Chilblains or Chapped hands, Sore or Inflamed Breast Weakness or Pains in the Stomach, Piles Corns, Warts, and Common Sores and Cuts and Bruises of all kinds

In bringing this article before the Public, we are aware that we labor under no small disadvantage amidst the multitude of "All-Healing Ointments" and "Panaceas" that are now advertised is the *"most effectual"* and *"certain cure"* for all diseases indiscriminately, to which man or animals are subject

A history of this Salve, and the wonderful cures it has effected in the above complaints, will be found in a pamphlet accompanying each Box—a reference to which is invited before purchasing

We would only add, that we have undertaken the task of manufacturing the above named Salve not inconsiderable trouble and expense, not so much as a matter of speculation and pecuniary benefit as in compliance with the earnest and repeated solicitations of personal friends and those who have experienced its wonderful medicinal and all-healing properties

To say, indeed, that we do not expect to realize handsome remuneration for our services, would be alike useless and untrue But we flatter ourselves that if, forsooth, we are richly paid, and the article known, very soon has an extensive sale—the Public will be receiving a full and ample equivalent

As we have already intimated, we do not and shall not call to our aid the empty *puffing of the Press* or the *thought certificates* of individuals, and shall make use of them only so far as they have been or hereafter may be, genuinely *voluntary and unsolicited*

The Salve is now before the Public

They, and they alone will decide upon its real virtues and medicinal properties to say less, were injustice to ourselves—to say more would be *super abundous*

Here are some of the many Certificates—

The subscriber was afflicted with a Fever Sore upon his leg for about six years, and in the winter of 1843 it commenced swelling from the ankle to the knee After using many remedies without success I applied some Salve obtained of Mr A M McKenney, and continued its application until I had used six bottles which entirely cured me, and I have had no return of the disease since I would say that I know the above Salve to be a cure for Corns, one of my family having used it for this purpose with complete success

DANIEL SEAVEY

Dexter, (Maine) May, 1846

This certifies that one of my sons having been afflicted with a Fever Sore for more than a year, and having tried various means to effect a cure, without success—which cost me about forty dollars, I bought 1½ oz of JONATH M. KENNEY'S SALVE, which effected an entire cure in less than two months

Mr. McKenney—In going into the woods in the autumn of 1845 with the charge of quite a number of men, for the winter lumbering, I was induced to take a few bottles of your Salve, it having been recommended to me as one of the best remedies for accidental Cuts and bruises, and I found indeed, to my great satisfaction, that it was an invaluable article I also made application of it in cases of Cuts Sprains and Bruises upon my cattle and found it equally beneficial It can truly be called the All Healing Salve.
